■ Product Requirements Document (PRD)

Project Name: Library Connect (MVP)
Version: 1.0
Date: October 2025
Prepared By: Hemanth Kumar Garnapally

1. Product Overview

Library Connect is the pilot module of the Grand Vision ecosystem that enables donors to contribute books or funds to verified community libraries. The MVP ensures transparency through verified deliveries and impact updates.

2. Problem Statement

Donors lack transparent, verified ways to support rural libraries. Libraries struggle to publish needs and confirm fulfilled donations. There is no centralized verification and tracking system.

3. Product Goals & Objectives

Goal	Objective	Success Metric
Build trust & transparency	Verify libraries and track deliveries	≥90% verified profiles
Simplify donor experience	Enable one-click book/fund donations	<3 steps per donation
Enable measurable impact	Provide feedback and analytics to donors	≥80% donors receive updates
Establish scalability	Prepare for future cause modules	Integration readiness for 2+ modules

4. Key Stakeholders

Role	Description
Donors	Urban/NRI/local contributors donating books or funds.
Libraries/Coordinators	Beneficiaries posting verified wishlists.
Admins	Internal team verifying profiles and managing disputes.
Developers/Designers	Build and maintain the platform.

5. Scope (MoSCoW Prioritization)

Must Have: Library registry, Wishlist posting, Donation flow, Delivery confirmation, Admin verification.
Should Have: Donor dashboard, Notifications, Basic analytics.
Could Have: Recurring donations, Social sharing, Multi-language support.
Won't Have (Now): Multi-cause integration, Gamification.

6. Success Metrics

- ≥100 libraries verified in first quarter
- ≥1,000 donations in 6 months
- ≥90% delivery confirmation rate
- ≥4.5■ average donor satisfaction
